AAHOA Statement on House Vote on the American Health Care Act

WASHINGTON – Chip Rogers, president and CEO of the Asian American Hotel Owners Association, released the following statement regarding the House of Representatives vote on the American Health Care Act:

“The House of Representatives voted today to take a critical step forward in reforming our health care system by approving the American Health Care Act. We’ve continually urged Congress to adopt changes to our health care system that would benefit AAHOA’s 16,500 members and their 600,000 employees nationwide. We support provisions that would simplify employer reporting requirements, restore the definition of full-time employee and alleviate complex tax policies. While not perfect, the American Health Care Act is a step in the right direction. We’ll continue to speak to Congress about more reforms that will lower costs for employers and workers alike while leading to greater and more affordable coverage.”

Founded in 1989, AAHOA (www.aahoa.com) is the largest hotel owners association in the world, with more than 16,500 small business owner-members. AAHOA members own almost one in every two hotels in the United States.
